

ANIK DAIGLE

Anik Daigle teaches physics at Collège François-Xavier-Garneau, Quebec.

She is also a Research Associate at Centre Eau Terre Environnement, Institut national de la recherche scientifique (INRS-ETE).

She obtained her PhD in Physics (2005), masters in Astrophysics (2000) and bachelors in Physics (1999) from Université Laval.

Research Interests

- Characterization and modeling of water temperature and flow regimes of North American rivers
- Application of Particle Image Velocimetry to the measurement of ice drift velocity

Publications

Daigle, A., St-Hilaire, A., Beveridge, D., Caissie, D., Benyahya, L. 2011. Multivariate analysis of the low-flow regimes in eastern Canadian rivers. *Hydrological Sciences Journal*, 56(1), 57-67.

Daigle, A., Ouarda, T.B.M.J., Bilodeau, L. 2010. Comparison of parametric and non parametric estimations of the annual date of positive water temperature onset. *Journal of Hydrology* 390, 1-2.

Daigle, A., St-Hilaire, A., Peters, D., Baird, D., 2010. Multivariate modeling of water temperature in a semi-arid watershed. *Canadian Water Resources Journal*, 35(3), 237-258.

Daigle, A., St-Hilaire, A., Ouellet, V., Corriveau, J., Ouarda, T.B.M.J., Bilodeau, L. 2009. Diagnostic study and modeling of the annual positive water temperature onset. *Journal of Hydrology* 370, 1-4.
